## Synopsis

Erich von Daniken again shows his flair for revealing the truths that his contemporaries have missed. After closely analyzing hundreds of ancient and apparently unrelated texts, he is now ready to proclaim that human history is nothing like the world religions claim and he has the proof! In *History Is Wrong*, Erich von Daniken takes a closer look at the fascinating Voynich manuscript, which has defied all attempts at decryption since its discovery, and makes some intriguing revelations about the equally incredible Book of Enoch. Von Daniken also unearths the astounding story of a lost subterranean labyrinth in Ecuador that is said to be home to an extensive library of thousands of gold panels. He supplies evidence that the metal library has links not only to the Book of Enoch but also to the Mormons, who have spent decades searching for it, believing it to contain the history of their forefathers. And what about the mysterious lines in the desert of Nazca that resemble landing strips when viewed from the air? Archeologists claim they are ancient procession routes. Think again! cries von Daniken, as he reveals the data that the archeologists never even thought to check. *History Is Wrong* will challenge your intellect...and maybe a few long-held beliefs. This is Erich von Daniken's best book in years!

## Customer Reviews

Erich von Daniken was born in Zofingen, Switzerland, in 1935. His lifelong fascination with extraterrestrial visitors first found its expression in 1968 with the international best-seller *Chariots of the Gods*. His books have been translated into 28 different languages and have sold

more than 63 million copies. In addition to his writing, he is an ever-present figure on the international lecture circuit, is regularly featured in documentaries and on TV, is the chairman of A.A.S. R.A. (Archaeology, Astronautics & SETI Research Association) and a regular contributor to its magazine, *Legendary Times*.

I am very satisfied with this purchase.

During his 40 plus years career Erich Von Daniken wrote dozens of best selling books, which promoted and for many people,, proved the ancient alien theory. Since the publication of his first book, "Chariots of the Gods" in 1968, millions of people have read his books and found his work credible, his research beyond reproach, and his conclusions logical and convincing. In "History is Wrong" the author continues to provide evidence of extraterrestrial visitation and influence in earth's ancient past. The author also discusses in detail a serious attempt made by several individuals to discredit and perhaps even destroy his career following the publication of his second book "Gold of the Gods". All together it makes for an extremely well written and interesting read. I urge everyone to read this book!

Everybody need to get this! Very interesting and educational.
