"With warm prose, comforting acrylics, and a healthy dose of physical comedy, the tale should amuse young readers." - Publishers Weekly

I was looking for new books for my son when I came across this book for preorder. My 5 yr old looked over my shoulder and exclaimed "When can we get it mom?!?!". Notice he didn't ask IF we could get it! My son knows I love Bear just as much as he does so it was never a question of "CAN we get it", he knew better. The newest Bear book is once again the perfect combination of great writing and awesome illustrations. Karma Wilson always has a wonderful melody and tempo to her writing with stories that are perfect for young children just grasping their social and emotional development. My children love that they can sometimes predict what will happen next in the story and sometimes they dance on the end of their seat waiting to see what will happen on the next page. The illustrations by Jane Chapman bring the story to life and give us characters that we love to look at over and over again. My son describes it best... "I just want to love and snuggle Bear all day long". This particular story was special to my youngest as he has not yet lost a tooth but is eagerly waiting. I thought the subject was handled beautifully since the wonder and fear quickly turned into "what can we do" and excitement. If Jane Chapman and Karma Wilson continue to work together, I will continue to purchase these books. They just make you feel happy!

The Bear Books are a great read. My son requests one to be read to him every night. This book is easy to grasp for a first time reader as well.

We've been waiting for another bear book! And perfect timing with our first born recently losing his tooth. He's grown up reading bear books and loves all bear's friends-rabbit, mouse, wren, raven, badger. Karma Wilson is the best author....this book falls in line with the others in style and pattern. After reading it a couple times, your kids will chime in "bear's loose tooth" just as they did reading bear snores on..."and the bear snores on." After reading this book the first time, we went and made it a bear night and read them all. Such great family time laughing as we all enjoy our favorite forest friend! Welcome back bear...now come back again soon please!

This series is our kids absolute favorite. Great messages as well. Highly recommended!

LOVE IT! Our daughter is 4 1/2 yrs old and has her first loose tooth. This book is great for her age and offers a gentle, kind message on what to expect, ie what to do with a loose tooth, tooth fairy, etc. We've been reading it every day so far. This book is also beyond expectation in that it has lots of great illustrations of animals. Highly recommend it!

Love these books.

Good book

Karma Wilson has created the most enchanting series of books for children, and for adults reading to children. Bear and his friends teach children wonderful lessons about friendship and loyalty. The illustrations are colorful and engaging and the repetition of phrases allow children of all ages to participate in the read-aloud. All of my grandchildren love Bear and often share favorite phrases at family gatherings. The entire collection of Bear books is worthy of purchase. They will become treasures shared for generations. Yes, Bear books are classics!
