Customer Reviews

This is a short book on Aruba. I read it on the airplane heading to my vacation spot. This book had no history and very little references to places of interest and recommendations. I could have added more facts and details to a book after one visit.

This book was worthless to me and gave no current information

My husband and I go each year to Aruba and know the island pretty well. This book gives a cursory overview of Aruba, but stops short from offering practical advice for a visitor that is expected from a guidebook. Also, there are no photos or maps in the book. It is a short read, and it is on Kindle Unlimited, so it may be ok to explore as a brief primer to Aruba.
