ISBN-10: 0071400222

ISBN-13: 978-0071400220

Product Dimensions: 8.3 x 0.6 x 10.9 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars 6 customer reviews

Best Sellers Rank: #601,012 in Books (See Top 100 in Books) #27 in Books > Science & Math > Mathematics > Applied > Biomathematics #480 in Books > Textbooks > Medicine & Health Sciences > Nursing > Fundamentals & Skills #674 in Books > Medical Books > Nursing > Fundamentals & Skills

Customer Reviews

Larry Stephens, Ph.D., (Omaha, NE) is Professor of Mathematics at the University of Nebraska and is also the author of several books.

Purchased this for a nursing program I am entering. I haven't done maths in years and with calculators now, who does math by hand anymore? This book really helped me re-learn all the maths I had forgotten years ago! Lots of tips and tricks that I will be using now!

GOOD REVIEW MANUAL. SOME OF THE MATERIAL IS CONDENSED, BUT NOT 100% THOROUGH. MATH SECTION COMPREHENSIVE, BUT THEN SKIMS ADULT/PEDIATRIC MEDS & DOSAGES.

Perfect exactly what I expected & wanted

as a gift to Tommy, good . great. feel very good . Very sharp and strong product. It was my first kind of cutting product for food and I am very impressed. I've had it for a few months now and its sharpness is still the best of all the knives I have.

My daughter returned to school after an 11-year hiatus. I used to help her review math, but she has since moved and had to do it on her own. This guide was very helpful to her while studying for the Nursing School entrance exams, and she breezed through the math section.

Nursing students -- This is the book you must have if you want to really learn the concepts behind the math you will be expected to do on a daily basis in both school and clinicals. This book has great explanations, and lots of study questions to hone your new skills.
