Customer Reviews

I cannot put this book down. It is quite the tome!The material in the book is quite fascinating. I feel like when I read Green Enchantments that i am in a green field at the base of a majestic Catskill Mountain. I reccomend this book for hikers as well as nature lovers. This book is a natural high that is quite addictive.....Bravo Mr. Boyajian!! can't wait to read any additional books written by you!

Spending so much time as a kid and then as an adult with my own children, I am surprised at just how much there is to know about the Catskills. I thought I had it all covered. Reading your book has opened up alot for future trips with my family, especially the "festivals" section which the kids love. Good job!!!

Michael Boyajian not only communicates a massive amount of information about the Catskills, he gets under the surface to reveal the soul and depth of this special region. Green enchantments, indeed!
