Best Sellers Rank: #95,885 in Books (See Top 100 in Books) #53 in Books > Children's Books > Cars, Trains & Things That Go > Planes & Aviation

Customer Reviews

Book by Charles Reasoner

Not much of a story line, and given the red cross symbol on the book I thought it would be a little more of a rescue helicopter book. It talks about delivering supplies in an Alaskan like setting. None the less. I do really like this book. My husband is gone a week at a time for work flying helicopters and this was good book to use to talk about where daddy is. It's very short which has been great through the 18 mo-2 year stage.

This book is 4 pages with no major story line. Maybe recommend for a baby to play with or look at pictures. My son is very into helicopters and he is 2. We were very disappointed in this purchase, only nice thing is the illustrations on the 4 pages?!,

first one in this series I've bought - repetition "big busy helicopter" my baby loves helicopters but she also likes a story and this is very light on.

Perfect gift for the baby whose father is a helicopter mechanic.

Love all the books, my grandson loves Helicopters and garbage trucks!!!!

Sturdy but not versatile pictures, only a couple of pages and shows same helicopter picture in all pages. Wishing it was longer and more appealing on pictures. More like for a one year old appeal.

I thought this was a pilot operating manual for a Bell Jet Ranger, but it wasn't. Still, my kids liked it.

Xmas gift from my grandson
