"Phelan's 1-2-3 is the gold standard of child discipline for good reason." ---Library Journal Starred Review

Thomas W. Phelan, PhD, is an internationally renowned expert, author, and lecturer on child discipline and Attention Deficit Disorder. A registered PhD clinical psychologist, he appears frequently on radio and television. Dr. Phelan practices and works in the western suburbs of Chicago. Educated at Juilliard, Paul Costanzo brings the sensitivity and nuance of a classical music

background to his twenty-five-plus years of voice acting, and AudioFile magazine has called his narration "superb."

This method works. But if you can't get your partner to buy into using the method correctly you will quickly become the bad cop with your kid and a little bit of the connection with the kid is lost. I am waiting to see if the kid will thank me later for actually being the bad cop all the time. Kid's behavior has improved and knows what is coming when the count starts and does the timeout physically without fuss even though still a bit of verbal/noise before extensions periods warnings are given.

Book has changed our life! Our kids barely get to #2, as soon as we say "that's ONE" the behaviors we don't want are quickly stopped. Highly recommend to all new moms. - Mom to 2 & 3yr olds

Great book. Love how it is simple explains it in plain and simple terms. It has helped me manage my daughter a lot and helped with boundaries and learning to rationalize. I highly recommend it.

No more screaming. Yeah! I would recommend listening in your car. Each parent should listen to it. We are grandparents. We listened to it on the way to Florida. You have to stick to it. You as the parent have to stop being a big whiny baby and grow up. If you want a happier family this will help.

Love it, I'm a mental health counselor and use the tenants of this book all the time, Workbook helps with assigned homework for parents.

This book should be mandatory reading for all parents. It teaches parents and care givers to hold themselves accountable for follow through and it teaches children natural consequences and readies them for the realities of the real world. It works great for children with challenges such as ADHD.

Will stand behind this book 100%. It's made a world of a difference with our strong willed little girl. And the technique is so simple! It's easy to implement at home, at grandparents and while out and about. Highly recommend this book for all parents of young children. It's a quick and easy read with funny examples and real life scenarios.

Encouraged is not the word for this amazing book! We took the suggestions and employed them as

directed and 1-2-3 Magic! Our household is already more calm and respectful and we, as parents, have learned more about ourselves than what we thought was originating from our children. It is a God-send and we are going to buy more copies and give to our friends when they ask us about our family peace. :)
