Customer Reviews

Reviewed with Kem Knapp Sawyer's Anne Frank.Gr. 5-10. Most of the famous people in the new DK Biography series have been well covered in books, films, and plays, and their autobiographies have remained international best-sellers. That said, these attractive books are, nonetheless, highly readable, worthwhile overviews for young people that introduce both personal and wider background and historical issues. For Anne Frank, Sawyer drew extensively on several sources, including the Diary in its various versions and accounts by Anne's father and their rescuer Miep Gies. Her clear history makes this a good place to start research. Less has been written about Keller, so many readers will find Garrett's book a fascinating first look at the amazing woman, blind and deaf since childhood, who, helped by a devoted teacher, learned to read and speak and

traveled the world as an inspiring public speaker and political activist. The publisher's familiar illustration-rich page design works well in the smaller format of this series, and the smooth narratives are broken up on every page with boxed facts and quotes as well as well-chosen, small color photos. For other titles in the series, see the Series Roundup in this issue. Hazel Rochman

Helen Keller was a strong intelligent woman. She has been an inspiration to me since I was in grade school. I introduce my students to her every year. This book contains many photos I'd never seen and is a nice biography of her life.

Great book. Great pictures. Easy to read and understand for my son in 8th grade.

Great!

Loved that book ! It was filled with amazing photos of her and her past home, school, and friends who she trusted and much more. A truly inspirational story of her life that inspired me deeply that I knew not . She is truly my inspirational that I honored her so much and thanked her for her hard working to help and donated handicapped people what they needed .

While this series is designed to be useful to younger readers in learning about the lives of famous people I found HELEN KELLER: A PHOTOGRAPHIC STORY OF A LIFE by Leslie Garrett to be very satisfying as an adult. The pictures are wonderful but the text is also outstanding. I would highly recommend this to be used by families who want to interest their children in learning. Along with the film THE MIRACLE WORKER this would provide an excellent insight into the life of a very inspiring person and to those who taught her.

An amazing story that everyone should know.

A very interestingly informative and exciting source of information about Helen Keller

Again my grandkids should learn about her and how she overcame her adversity. I bought it for them.
