We love this book--it's fun with beautiful pictures and yummy recipes.

If you like me and enjoy having a Bloody Mary, this book is a great way to broaden your horizons on the variety of different types that you can make. This book takes into account all types of people; I love that many of the ingredients are easy to procure and the recipes are easy to follow. With this book, you'll be able to make a Bloody Mary for every occasion imaginable. Highly recommend it if you enjoy this classic cocktail

This outstanding guide to the BBME (best bloody marys ever) is full of easy-to-make and exciting food tied to flavors of the drinks; great instructions for the classic cocktail with all its variations, but then innovative options using ingredients as diverse as pureed kimchi; some are not red at all because they're made with yellow tomatoes or tomatillos; a whole chapter devoted to creative garnishes to make or buy.

I received this book as a gift and was a bit skeptical because I am not a big cocktail person though I do enjoy a bloody Mary now and then. To my surprise this book is about much more than the famous drink. I LOVE the recipes for munchies to accompany the drinks and these recipes are easy, delicious and impressive to guests. The garnishes are pretty amazing as well. Even if you are a "virgin" bloody marry type of person, you will love this "cook book".

I love this book. I always thought that a bloody mary was only V-8 and vodka, now I have a whole new perspective on this drink. Plus the snack collection of receipes is wonderful. Kenn
