Customer Reviews

This cd/book combo of "Cars " is a welcome break after listening to endless Thomas the Tank Engine books. The story is very well narrated and pretty much captures the essence of the movie. The books reads well separately from the cd-it has a nice flow and even with my comparatively bland presentation, is a hit. Someone at Pixar has great insight into the imagination of kids. I like that the cd begins again automatically, since it is invariably requested over and over again.

I bought this for my son as part of his Easter present. I play it for him at night time and it instantly stops his crying. He becomes moee content and will lay down and listen. He loves it, and we love it too! Really helps us out on nights where we aren't able to read to him.

The kids love these books on CD in the car. Especially nice is that they use the real voices from the

movie. The narrator and sound effects are great too. A bonus with taking them on a long trip is that the book can be a standalone for bedtime reading. We have a bunch of the Disney ones, and they're all great.

Conform to description... It was a gift for my swiss nephew to help him get some basic english with fun as he loves Cars... product came quickly and as described.. Nothing to complain about! And price is definitely right.

We love listening to this in the car!

grandson loves

Great book/CD

very good
