A paperback manual

If you are a registered nurse and you don't own this text, buy it today! Every nurse should be knowledgeable about his/her scope of practice. When I originally read this text as a new nurse I did not fully understand or appreciate the information. This text reveals the evolving changes in nursing. I am empowered and proud when I now (as an experienced nurse) devour the text for all its worth.

This is a staple to have in your book collection as a nurse. Every nurse should have this and it is a reasonable price.

Its a book. It worked for the class i needed it for. I got a great orice on this book.

Every nurse should be familiar with the contents in this book.

Great new study guide

Nursing: Scope and Standards of Practice is a great resource tool for nursing students. As always, makes it convenient to get needed study material.

Just as described. Perfect! Fast shipping as well.

This is a useful and informative book.
