Ok, I'll admit it, I'm a PROUD Mom...I bought this book because my daughter works with Stem Cell Research and SHE is on the cover. I began reading it and it's awesome..it's written in PLAIN English and not over my head with a lot of Medical terms I wouldn't understand. It opened my eyes and answered a lot of my questions. I had regarding the research. VERY interesting and informative reading!!! If you have the time, do check it out you won't be disappointed!!!
