Chocolate Fever

Synopsis

Getting Chocolate Fever can change your ideas about chocolate and life! Henry Green is a boy who loves chocolate. He likes it bitter, sweet, dark, light, and daily; for breakfast, lunch, dinner, and snacks; in cakes, candy bars, milk, and every other form you can possibly imagine. Henry probably loves chocolate more than any boy in the history of the world. One day-it starts off like any other day-Henry finds that strange things are happening to him. First he makes medical history with the only case of Chocolate Fever ever. Then he finds himself caught up in a wild and hilarious chase, climaxed by a very unusual hijacking!

Book Information

Lexile Measure: 0680 (What's this?)

Customer Reviews

"It's all quite preposterous and lots of laughs, and so are the cartoon illustrations."--Publishers Weekly.

Henry Green eats so much chocolate he comes down with chocolate fever."It's all quite preposterous and lots of laughs, and so are the cartoon illustrations."--Publishers Weekly. --This text refers to the Library Binding edition.

'Chocolate Fever' is an old family favorite. But this book is not to be taken seriously. It is pure imagination; a vacation for the mind. Children will enjoy the book simply because it hits their realm of fears and dreams. Parents will enjoy reading it because it will recapture for them some of the essence of their own childhood...extravagance in little things...relishing the taste of something delicious and experimenting with it in strange ways...wondering: 'what would happen if...?' and letting one's imagination go to find out. A delightful gift for a boy or girl between 8-12. A fun read-aloud for the family (a 5 year old would be able to track along if hearing it read). 'Chocolate Fever' would even be appreciated by a teenager or adult who simply wanted to rest from the stresses of life, and take a vacation in their minds.

Great book

Great children's book

Loved it, just like when i was a kid. I read it to my daughter, maybe one day she will read it to get children.

My 6yo adored this and immediately read the whole thing. He was hoping it was part of a series.

Bought this book for my students because I used to love them!! They are lining up for this one!!

Ã Â Â^Âf

My grandson loves chocolate so I thought this would be a good book to read aloud to him. He is 6. We both thought the story was just ok. It did spur some discussions about going with strangers and bad people with guns. I was disappointed with the book since I thought it would be more humorous.

My students enjoyed the story.
