Michael Middleditch worked for many years as a cartographer for the publisher Geographia before founding his own company where he invented the hugely successful concept of the Mapguide. He has two grown-up children, and lives with his wife in St Albans, Hertfordshire.

I sent it to a friend in a foreign country who didn't have a global map. She was thrilled and excited to be able to learn so much about the world, and keep learning. Maps are fascinating.

This is a great map. If I could complain at all, I wish that the paper was just a trifle thicker as this is a large map and can tear easily at the folding spots. But the map itself is just fine.

For those of us who want a revised and up to date map, this is a great choice; large and beautifully colored.

Got this for my mother-in-law. She loves it. Very readable and large enough for her to get a feel for the distances.

Great book

Folded up this is 6.5x8.5inches, and it is sturdy, light, & easy to pack and take along with you anywhere. It expands to 48"x32", or you can view segments, and it's easy to re-fold. We've taken ours traveling/cruising with us for years so it's dog-eared. Am buying them now for children and grand-children.
