Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

It's a good book for a beginning guitarist. The only negative is that it doesn't have enough of my favorite songs included. I found the three chord worship book more to my liking- not because I can't play Em (the easiest chord to play actually), but because the song offering in the 3-chord book suited me better. Still, I'm glad that I purchased both books.

I bought this book after getting the 3 Chord Worship Songs book. It has worked out great because I play with a group of young kids (14-11) who have very limited experience. This book takes the same chords from the 3 Chord book and adds an E Minor so it is a great way to build on skills from the 3

Chord book. Between the two books there are about 50 songs that can be learned and are fairly easy to get down.

I purchased this book to give me some familiar songs to play and expand my ability beyond the simple level one and two "learning to play" books I have been using. I've wanted to learn guitar for years and finally dove into it. While I still practice 18 different chords from time to time, having four to concentrate on really has improved my ability to play. It also provides individual notes, which I prefer to see while playing.

I started playing guitar and I always wanted to play worship and praise songs. This book makes it easy to play once you learn the cords!

Have two of these books, the three chord and this one, and they have helped me learn many popular worship songs. I only recently learned to play guitar and these make it enjoyable to sing and play in my spare time. Get your praise on!

this has some of my favorite worship songs and is very clear as to where you change chords. It has the melody line as well. I am very glad I purchased this book

I think it helps if you know the songs ahead of time but it's good, gets the job done, shows you the chords on every page. I'm enjoying it.

Big help as a beginner. After 3 months I'm already playing for church and Bible studies.
