Etudes: Chopin National Edition 2A, Vol. II (Works Published During Chopin's Lifetime)

Synopsis

(PWM). Includes the Etudes of Op. 10 and Op. 25, and the three Etudes without opus number. Chopin's Etudes address aspects of piano performance by one of history's most noteworthy pianists. They are also masterwork miniature musical poems. The National Edition of the Works of Fryderyk Chopin Published by PWM Exclusively Distributed by Hal Leonard Corporation Co-Editors Jan Ekier and Pawel Kaminski The objective of the National Edition is to present Chopin's complete output in its authentic form, based on the entire body of available sources. Sources were analyzed with up-to-date scientific and musicological methodology. The National Edition was based on sources originated from the composer, mainly autographs, copies of autographs and first editions with the composer's corrections, and pupils' copies with Chopin's annotations. In cases when original sources were lacking, the closest possible materials were used. Collecting the source materials was a laborious task which took years of effort. The characteristics of sources, the links and discrepancies between them as well as the reasons for particular editorial decisions are discussed in the Source Commentary in each volume. The Performance Commentary appended to each volume includes: the realization of ornaments, comments on pedal markings (the original markings sometimes are inadequate, due to the difference in sound between pianos used in Chopin's times and modern pianos), suggestions as to the "harmonic legato" (a performance technique often used by Chopin and now forgotten). About the National Edition Full Introduction to the Polish National Edition of the Works of Fryderyk Chopin

Customer Reviews

Yet to try out the pieces, but print and paper quality are good. Wish the binding would allow the book to sit flat, without needing to be bent backwards and worry about spoiling the book.

Reliable with correct markings and notations as it is used in chopin international competition. This book is a great way to help with your journey on finishing your 27 etudes without wrong markings etc.

Scores are very clear, well printed...

Do not doubt, buy this edition is excellent, BELIEVE ME! :D
