Peter -- and later, his wife, Edna -- sought to create fine books that sold at prices even a pauper could afford. Today, still family owned and operated, Peter Pauper Press continues to honor our founders' legacy -- and our customers' expectations -- of beauty, quality, and value. I had a quarter collector map that I had started years ago, but never finished. I gave it to my 11 year old daughter recently, and my 10 year old son really liked it and wanted one too. This one was a great price, and I love that it has a place to hold 2 sets if you want to collect both sets from the different mints. My son loves it, it's good and sturdy, and very nicely illustrated.

This is a great coin collection folder/album! It is quite large, but it displays the coins so nicely. The map is quite attractive, the coins are not all bunched in, and it allows you to collect and display both mints. It is made of pretty thick material which holds the coins snugly and lies nice and flat when

open. This is by far one of the best things I have bought on .

It does have space for over 100 quarters, half from Philadelphia mints and half from Denver mints. The quality is excellent, the coins gets firmly embedded, it has a good size. Definitely recommend and would definitely buy again if o decide to make another collection.

my 8 year old daughter recently got into collecting the state quarters. she's not worried about mint condition and all that, only that the quarters are shiny enough. this holder will keep all the quarters in place, and will allow easy removal to swap out for a cleaner quarter. i like how there is another side for collecting the second series from the other mint.

Purchased this for our nine year old son as a Christmas gift and thought he would enjoy the fun in collecting the coins. He absolutely loves it! What an amazing way to learn about the states and enjoy a treasure / scavenger hunt in finding all of them.

My 7 year old son really enjoys this. He has so much fun hunting for the different quarters. This is nice quality.

I just got this yesterday, I had collected a pile of state quarters over the years with nowhere to put them. My son and I had so much fun putting the quarters in, they went in easily, but snug enough to stay in. And at the same time it was a great learning opportunity! A great idea as a gift and for family time.

We purchased two of the 50 State Commemorative books for our two grandsons. We already have the coins to insert into the books. The books tell about each state also.
