Jody Revenson has written extensively about the Harry Potter films, with her most recent books being Harry Potter: The Character Vault, Harry Potter: Magical Places from the Films, Harry Potter: The Creature Vault, and the upcoming Harry Potter: The Artifact Vault. In her first foray into the Wizarding World, she edited and contributed to the New York Times best sellers Harry Potter: Film Wizardry (penning its updated version and App) and Harry Potter: Page to Screen.

Easy to assemble and, considering that it's made out of balsa wood, it's pretty sturdy. We didn't paint ours, but it still looks very nice with the natural wood color. This was a fun family activity and it

only took about an hour, although an adult doing it could certainly complete it much faster.

very fragile wood, broke easily

I got these kits for my daughter but I ended up loving them myself as well! They're easy enough for me to do (and that's saying something, lol!). You don't need any glue or tools - just push the die-cut wooden pieces out and stick them together. The directions are easy to follow, with visual illustrations to help you along, and each piece is numbered on a diagram to assist you in assembly. This particular kit also comes with a neat book about recreating Quidditch flying in the Harry Potter movies.
