Customer Reviews

Drew Charles wants to live the life she always wanted, the one her soon to be ex- husband did not allow her. She just needs a place to stay and a roommate to split the rent with while she looks for a job. Jake Cocker introduces himself wearing only a towel and a smile and I convince him and myself I only need a room to rent and am not interested in him because he is eight years younger than me. Jake is used to women throwing themselves at him and his brothers. He was not going to rent to a woman, until she started to cry. Jake figured he earned the nightmare, but Drew keeps her distance. Jake has been burned too many times by women and does not think he can find one to trust. Drew's elegance and determination to make her own way resonate deeply with him and he grows to care for her. Not that he will admit that to anyone, much less himself. Drew wants to stand on her own and she is not one for casual relationships, which is all Jake seems to be after. A great story. Two people, from different worlds, realizing what they want in life. Jake and Drew face troubled times, Jake not feeling good enough, a crazy friend, and Jake sent away for work.

4 predictable, funny, cheesy, and cocky starsAs predictable, instal-love, cheesy, sometimes ridiculous as Cocky Roomie was, I still really liked this book!Drews, who is 33, recently separated from her husband, has no job, and seemingly little life skills is trying to start her life all over... or really for the first time. The first step is finding somewhere to live. A very honest... even humorous

ad for a roommate catches her attention. When Drew goes look at what will hopefully be her new home she is met with a quick no! Because this roommate doesn't want a girl!! Jake's family is well known, wealthy, and everyone (6 brothers) are all incredibly good looking, and yep you guessed it manwhores. Jake is a cocky male who speaks his mind, and is embarrassed by nothing. With his youngest brother joining the marines, he needs a roommate. a MALE roommate. However, the often unseen softer side of Jake that can't stand the tears Drew is crying decides he will let her move in. Drew and Jake mutually agree that they will never cross the physical line and will keep this a platonic roommate arrangement. An agreement that proves increasingly hard!! Yes this book is predictable (although not without some twists), yes there is the instal-love thing going on, yes it can borderline on cheesy, regardless of all those things... this is a very enjoyable read. I was literally laughing out loud by page 2. Jake is hilarious. I loved the personalities and interactions between Jake and his brothers... again hilarious. As cliched as this book seems, the story is quick and oh so enjoyable. I read it in one sitting. If you are looking for that light hearted, quick read that will make you laugh look no further!!

Absolutely loved this contemporary romance. Jake come from a large family that has money & ties in politics, six boys that are all handsome and built. Drew (female version) is struggling to start over on her own. She married out of high school and hoped one day to be a stay at home mom. Instead she's in the process of getting a divorce because of her cheating husband. Drew didn't get to go to college and her husband convinced her not to work. Drew needs a place to live, a job and wants to help her best friend who is a drug addict. Jake loves his family and they are close but he and his brothers have reason to be cocky. He doesn't want a female roommate but look out Drew is persuasive. This is sweet, interesting, and has some tense moments. It is a standalone with a HEA. I received a free copy copy of this book solely in exchange for an honest review. I look forward to reading more books in this series and by Ms Hopkins in the future.

This story is Cocky Roomie, book one of The Cocker Boys series, written by Faleena Hopkins. This series is about the family of Cocker men. This one is about Jake Cocker and Drew Charles. Little did Jake know when he responded to her email, that she was female. That fact hit him right between the eyes when she knocked on his apartment door. I guess it shocked him so much that the towel around his waist was knocked from his grasp and left to flutter to the ground. How would you feel if a chiseled man answered the door in just a towel? What if he released the towel and dared you to look? What if he immediately said that you wouldn't be able to live with him because you were a

woman? This is a short, sexy, sweet and adorable read!! Loved it!!

I don't give 5 star reviews often, but I really enjoyed this book and Jake is an amazing book boyfriend. Jake and Drew are great together and while she did let some misperceptions get between them for a little while, she did admit it and things went on from there. Drew does seem to be younger than Jake at times, but she did lead a sheltered life before she met him. I liked the chemistry between them and how they both tried to fight it. I appreciated that they both tried to put Drew's dreams first so that she could build an independent life for herself.

Drew Charles is a true Georgia peach. After learning her life was nothing but a farce Drew packs up determined to start over...start fresh. What she doesn't expect is to find him on the way. Jake Cocker is as alpha sexy as his moniker suggests. Happy with his life in and out of the bedroom, Jake can't understand why he's making some of the decisions he is. Drawn to one another but determined to stay on their separate paths what happens when these two give in is off the charts Hottt!

This book had a few things going for it. First off, it made me laugh out loud. Secondly, the characters were interesting and made me want to keep reading. There were quite a few spelling and grammar mistakes throughout that made it kind of hard to read, but the story was good enough that I was able to overlook them. I hope that the author has an editor to help with future books so those mistakes don't continue, but overall, it was a great book and I'm looking forward to reading about all the Cocker brothers (especially Jason and Justin).
