If you have a child or grandchild just learning to read, then this book will be a hit. If your child loves all things Princess, this book will be a bigger hit. My granddaughter is five, just learning to read and is enchanted with all things Princess. Ariel, flounder and baby seal are playing hide and seek, one of their favorite games. Flounder and seal hide, and Ariel is all set to find them. Finding Flounder was fairly easy, but finding baby seal is more difficult. This is a fun story and for new readers, this book will be entertaining. The illustrations by Elisa Marrucchi are really superb. They are vivid and colorful, depicting all of the adventures of Ariel, baby seal and flounder. This should be a good book to start or continue with a self reader or someone learning to read. Recommended. prisrob 06-26-15

I love these step into reading books even though my kid can't read yet. All their books are similar in

quality: colorful, big words, simple plots, blend of dialogue and narration, cute stories. I've purchased several. I don't get tired reading the stories to my daughter and I can point to words that are spaced nicely apart. As for the "Sealed with a Kiss" story, this book is mostly about Ariel and a seal playing hide and seek. My daughter (3 when I first got this) could easily relate. This book was easy to make interactive as well, which is why I loved it so much. I can make sounds (pretend to blow a trumpet) when a trumpet fish is shown, and I make hand motions by covering her eyes when the character hides, and give her a kiss at the end when it says "sealed with a kiss." She loved it so much at 3 that I bought it again at 4 because she tore pages once when being silly. Buy it. It's easy to read and fun. I think even a boy would like it.

This book is fun. If you have a little mermaid fan, you will read it many many times. My daughter is only three and cannot read words but she can redo this whole book

My 5-year-old daughter loves this book and has it memorized. The seal is very cute, and it is quick and fun to read.

Purchased for my 3 year old great niece. She loves looking at books. Doesn't care for TV, but give her a book and she's happy.

A Good book but can not be uploaded to Kindle Paperwhite.

My Granddaughters thought this was a fantastic story i bought them several of these readers, My kindergarten girl read it through with very little help, and wanted to read it again immediately, my son said it is an every night deal, one to 2 readers every night.

Cute book for Ariel lovers learning to read!
