Winter Turning (Wings Of Fire, Book 7)

Synopsis

Daring mission... or deadly mistake? Winter has been a disappointment to his royal IceWing family his whole life. When his sister, Icicle, runs away from Jade Mountain Academy, fleeing terrible crimes and possibly planning to commit more, Winter knows that they both need a second chance to make things right -- if only he can find her. Winter's new clawmates, Moon, Qibli, and Kinkajou, won't let him make this dangerous journey alone. They don't seem to understand that IceWings, the most superior of all dragon tribes, can fix their own problems. When their search leads the dragonets straight into Queen Scarlet's vicious talons, Winter is grateful to have some help. But even the bravest dragons can't follow him to the Ice Kingdom, where he'll have to face the greatest threat of all: his own family.

Interesting first look into how Icewings are, from one of their own, that we didn't get in the first 5 books. Finished it in only two days and I can't wait for the next one, though I'm upset it's not from Kinkajou's or Qibli's perspective (I really hope there is one from Qibli's perspective in the future because he's my favorite of the dragonets :)). I loved the author's take on Winter and how over time he learns dragons from other tribes really aren't as bad as the Icewings think them to be. I thought Winter's crush on Moon, who's a Nightwing which are the sworn enemies of Icewings based on a lie, was adorable and really helped him see all Nightwings aren't bad. Overall I thought this book was great and I'm actually pretty sad there won't be any other books in Winter's viewpoint :(

Wonderful author, wonderful series! My tweens and I all enjoy this series so much! We even listened to the audio of the first one with the entire family on a road trip. I hope they make the rest available on audio as well!

Yes I'm over 40 and love this series. I love buying my kids books and reading them first. Winter isn't the most likeable Dragon but as we go through the book he discovers that the Icewings aren't the end all, be all dragons...and that other types of dragons are just as rich in history, beauty and knowledge as the Icewings. Very good book. Read it in a day. My son is ten and I'm planning on letting him start this series in a year or two more. I just think some stuff he wouldn't get yet. Highly recommend.

My niece was so excited to get this book! She loves the series because it is unique, intriguing and exciting. She gets into the characters and it's been her favorite book series yet. In fact, we

pre-ordered this one on before it was available because she was so excited. She's 2/3 through and loving it. I definitely recommend this series. I found it was a better price to buy each book individually, although I bought the first 5 at the same time. Please click "HELPFUL" if you appreciated this honest review.

Tui good job!! I read all the books including Legends: Darkstalker and all the Winglets already, and I have a few predictions about book 10, but before we get to it, let me explain some of the critical events that led to those predictions: 1) The release of Foeslayer and the thoughts about how Onyx wants to be queen of the world in book 7. 2) Dragons with gold BIRD medallions buying dragonflame cacti in book 8. 3) Darkstalker mistaking Turtle as Fathom, dragons with gold BIRD medallions (possibly the same ones who had been buying dragonflame cacti in book 8), SeaWing students on an overnight trip being haunted by the ghost of ALBATROSS, and the death of Queen Glacier in book 9. 4) Darkstalker and ALBATROSS both being stopped by Fathom in Legends: Darkstalker. Alright, now time to get to the predictions: First, there will be civil war in the Ice Kingdom, as Queen Glacier is dead, but not killed by any of the heirs. Second, Albatross will appear in some way, as the dragons that set off dragonflame cacti in the Kingdom of Sand have gold BIRD medallions that resemble Albatross, since an albatross is a type of a large bird, and the SeaWing students are haunted by Albatross' ghost. Also, the part where Darkstalker mistakes Turtle for Fathom means Albatross will seek revenge on Turtle too, since Turtle looks like Fathom, and is also an animus. Third, Qibli will use the dragon finding coral that he burrowed from Turtle (The description of book 10 says that Qibli used the animus objects that he burrowed from Turtle to give his talons the power to make a difference) to find Foeslayer, which disappeared in book 8, and then reunite her with Darkstalker, and then he gets like less evil, and releases Turtle from the dungeons, then Anemone enchants Turtle to be an animus again, and he stops Darkstalker with animus powers. Well... this is the longest review that I've ever wrote, soooo I guess that's it... Bye. p.s. Qibli's my fav character, so thx for making him the protagonist and PoV of the last book in the series!

I love dragons. A lot. And I hate that most of the times they're just the bad guys who get killed by a human hero... But these Wings of Fire books are awesome. I've enjoyed them a lot. The characters have all very different personalities and the universe is very well done. The only thing I will complain about is that I have to wait months for the next book... I'm thinking about re-reading them all meanwhile. I'm sure I'll enjoy them even more the second time.

Another great story from the Wings of Fire series. Sutherland possesses a great skill in creating dynamic characters. Each book I read through is professionally done and complete. The tempo of the story is just about right between tension and fun. All-in-all I cannot wait to read the next book in the Wings of Fire series!

My oldest absolutely LOVES the Wings of Fire books. Every time a new one is available I have to buy it for her. She will spend just a couple days and read the entire book. She will give you every detail of every dragon and such a detailed overview of the book. She will read this series over and over again.
