Customer Reviews

At first I was wondering if a group of people could each write a story that then could be tied together in a larger story. Boy, did they ever get it right. I loved this book. Now on to the next book.

Very interesting how the individual stories added depth into the collection. Not my typical reading genre, but extremely captivating and thought provoking.

Moves well, with multiple authors working around a common framework. Really well done. I look forward to the rest of the series.

Maintains CURIOSITY
