This is good for a foundation for basics

Pretty basic, but a good starter book

Pretty interesting - never knew the ukulele was so different

Easy to follow book that works through the basics at a great pace whether you know how to read music or if you have never okayed any other instrument in your life. The cd is a great reference and gives you an idea of what it should sound like when you play it. I have never played a stringed instrument and I was able to play most basic chords and scales after just a couple hours. My daughter is learning to play with me and she cannot read music and she is able to keep up with the book easily as well.

Great place to start for a beginner. Easy to understand and helps build good fundamentals.

Nice text book!!!

Very helpful

Arrived on time, as advertised
