## Customer Reviews

Contains both sheet music and tab. Music seems accurate, but tab needs a more logical arrangement. You'll have to mix it up a bit on some songs, like Electric Eye. Nothing from Sad Wings of Destiny or Painkiller, and I sadly can't find good tab for those albums. The 'official' stuff on their website is terrible, Song List: Breaking The Law Electric Eye Freewheel Burning Heading Out To The Highway Hell Bent For Leather Hot Rockin' Living After Midnight Ram It Down Some Heads Are Gonna Roll Turbo Lover You've Got Another Thing Comin' The Green Manalishi The Hellion Cathedral Spires Burn In Hell

First off, I agree that there could have been a different mix of songs but everyone has their own idea of which songs are best. Aside from that, the transcribed tab seems pretty accurate including the

solos. I was able to pick up most of these real quick and thoroughly enjoyed playing the music I grew up with. Too bad I can't turn back time.

Accurate tabs if you know how read it, i mean to translate it to other positions in the neck to play better , great classic songs. I'm still waiting for guitarbook of the last album, Redemers of Souls with Richie Faulkner on lead guitar, lots of Randy/Wylde inspiration solos!

This is a good book for guitarist trying to learn some of the more popular Judas Priest tunes. I've compared most of the transcriptions in the book to the recordings and the Tabs seem accurate. My biggest complaint with this book is there is nothing transcribed from the Sad Wings of Destiny or Sin After Sin albums. IMO the songs from the Ripper Owen period could have easily been left out and replaced with some of their earlier material. One sidenote. There is a book out there titled :Judas priest-The early Years Supertab. the book is 76 pg and was published by Warner Bros. This book is absolute rubbish. Every transcription is incomplete and wrong.

This book is a faithful recreation of some of JP's best hits. It includes the songs that get the most radio airplay, but not necessarily the best tracks that they ever recorded. The tab in this book is nicely done, and seems to be about right (makes my guitar sound pretty much like the albums). I knocked it down one star because the book is bound in the standard fashion, meaning that I had to crack the spine to get it to sit flat on my music stand. Also, there wasn't a musical notation legend or introduction, which are always nice. If you are a JP fan, this will get you going pretty well.

Very pleased with this book easy to read great condition no complaints. grew up listening to the priest. Thank you

worth the money

Don't know what more to say than the headline. In a fit of nostalgia, and being frustrated with bad tabs on the internet, I started looking for a good old tabulature book. This book has great tabs of great songs, by a great band. Get your hot rockin' on with this book.
