Radiant, childlike collages fairly exude joy in this eye-catching version of the Creation story. The text, as in Greene's *The Stable Where Jesus Was Born*, consists of modified cumulative rhymes not all phrases reappear in predictable order, but stable rhythm and judicious use of repetition create a stately structure: "This is the heaven, so skillfully framed,/ a glorious firmament God breathed and named,/ that glowed in the light, brilliant and bright." Wilson's (*A Gift for the Christ Child*) illustrations turn these agreeable verses into cause for celebration. Rendering her work with what the publisher identifies as printing inks and collaged papers, the artist uses strong color fields to suggest that "brilliant and bright" light; her first spread shows the blue-green planet Earth encircled in tropical blues and oranges. As the text introduces each aspect of Creation, the pictures grow more detailed and incorporate a rich variety of patterns. At the same time, a carefully maintained naive perspective and bold, streamlined compositions give even Wilson's most complex illustrations a seemingly effortless immediacy. Beautiful indeed. reSchool-Grade 3-The creation story from Genesis is retold in skillfully rhymed poetry filled with lovely images. Although not strictly cumulative, it has elements of repetition and rhythms resembling

the familiar "This Is the House That Jack Built." From the light; the firmament; the land and seas; the flora and fauna; and the sun, moon, and stars, creation culminates in man and woman. Then God rests, and the poem and pictures circle back to the beginning light. The stages of creation are illustrated in bright spreads of folk-style art. The figures are flat, but the swirling, whirling patterns of form, color, and intricate detailing are arresting and sophisticated. The golden sunburst of light, the star-filled cobalt skies, the multicolored fish swarming in turquoise waters, the circle of exotic animals, and the exciting abstract designs all reflect the majesty and wonder of the Earth.

Interestingly, the man and woman are shown fully dressed. The flowing, expressive verses read aloud exceptionally well, and with its large, handsome format, this is a fresh, creative treatment of creation. I use this book with early childhood and elementary age students. I find it is a good discussions starter and the pictures keep everyone's attention.

The illustrations in this book almost outshine it's message. By no means does that indicate that the writing is lacking. A wonderful book reinforcing God's complete direction over the creation of our world. Repetitive, yet fun, rhyming phrases made it a delight for our children.

I bought this book for two baptisms, then went back and got one for our family. We love the bright pictures. It is a great introduction to God for young children.
