How To Fetch A Fianc  : A Must Love Dogs Romance (Destination Billionaire Romance)

Synopsis

Hurt and broken-hearted after a painful divorce, Audrey Blair picks up and moves to Nashville looking for a fresh start. Her faithful German Shepherd, Duke, helps Audrey and her two daughters settle in while Audrey focuses on her work as a vocal coach. Even though sheâ€™s currently at odds with her faith, Audrey takes a chance and applies for work at a Christian music label. Sheâ€™s not looking for a relationship, but a game of fetch changes everything when her dog runs into Troy Jackson. Troy, the billionaire owner of Arise Music, is too handsome, too busy and too haunted by his past for a relationship. Heâ€™s intrigued with the new vocal coach who plays a dangerous game of fetch. Her musical abilities draw out a song thatâ€™s long been silent within him. Taken in by Troyâ€™s kindness and chocolate brown eyes, Audreyâ€™s heart shifts and she decides to give him a chance. Chasing fireflies with Troy changes the way she looks at the handsome billionaire and her heart feels like itâ€™s finally on the mend. Troy finds himself falling in love with Audrey, but when the truth about his past comes to light, will Audreyâ€™s faith be lost forever? With their love on the line, Troy is willing to accept help from anyoneâ€”even Audreyâ€™s dog, but it might require more than just a game of fetch to win her over.

Customer Reviews

She's a single mother with two little daughters. She starts over in Nashville as a singing coach. The owner of the Christian music company interests her and she has caught his eye too.

Too cute! Sort sweet love story of being honest, communicating, and forgiveness. Letting God in is a good theme of this good and letting go of hurt.

4.5 * rounding up. Super duper fun meet-cute! Loved it. I was laughing out loud and instantly felt a connection to the two leading characters. This is part of the Destination Billionaire series as well as the Must Love Dogs series. We get to visit Nashville and the music industry scene and I was pretty excited about seeing that in the synopsis before I picked up the book. One of my friends from college was a singer/songwriter and after she graduated she moved to Nashville. We haven't really stayed in contact over the years but I've seen a few of the things she has been connected with and heard from her a little bit the first couple years after she moved there. So this brought back fun memories of great moments with this friend. I really connected with several aspects of this book, the characters, little girls, singer, music, dog, yeah that definitely is my life. And we all know how we connect better to something that is similar to our lives and experiences. Audrey has been picking up the pieces of her life for the last couple years after finding out the devastating news of her husband having multiple affairs while they were married. His lack of desire to be a part of their young daughter's lives after their divorce and all the emotions from her situation have left her in a position she didn't think she would be in. Audrey is a singer/songwriter but loves being a vocal coach. She takes a chance and moves her small family from Oregon to Tennessee to take a chance on breaking into the music industry as a vocal coach. Her risks pay off and she is hired at a top Christian recording company. Instantly being able to prove her worth as a coach to several up and coming artists and several well loved and established artists. The only catch? She doesn't quite believe in the Christian thing anymore. How could she after all that has happened in her life? She loves the quality of music and respects those who work at the recording company but it's just not for her...is it? Troy is the billionaire owner of the Christian recording company Arise. His life has been anything but perfect and yet he has worked hard to improve himself and fix his mistakes. He loves his job and being able to bring Christian music and words of inspiration to everyone. There were

definitely several moments of thought and reflection for these two characters' lives, past, present and future. I loved how Rachelle Christensen wrote these characters. The honesty behind their emotions and feelings really allowed me as a reader to connect with them. Not that I have experienced what they have but it showed how in any situation in life, the myriad amounts of them, we can have hope. We can have healing, a second chance and most definitely peace. Whether you believe in redemption from God or not, whether you believe in second chances and peace or something else. Everyone has the chance for hope of a better future, hope of improving themselves and fixing mistakes. The cover may make it look like a book about a guy, a dog and probably a romance, this book is definitely about life. Making the most out of our choices, even if our circumstances aren't always brought upon us by ourselves but by others, we still have choices in how we react and how we move forward. A little lighter side of my review now, I loved Duke. Who is Duke? Duke is the dog. I'm a dog lover! I have two dogs, a big one and a little one (a new addition to our family after a friend passed away) and I love how they offer such great therapy. They don't judge, they love you always, they're funny, they're loyal, kind, (sometimes grumpy), mischievous, happy to see you always (okay maybe not always, especially when they get into the garbage and are hiding thinking you won't know it was them), dogs are just great. Mine are my shadows and best friends (pet friends of course). I loved how well Duke was written into the storyline. He didn't run the story but was a sweet added character. Audrey was definitely a fun and spunky character. I loved the journey that we were able to take with her as a reader. I loved seeing her take time for her healing and watching her as a mother, I loved her friendships with those around her. Her love and acceptance of others. I even liked her caution when it came to Troy and opening up to another relationship. Yet the sweet romance and beginning friendship/falling in love was so fun to watch. The sparks were sizzling and flying. Troy, yeah, Troy. He was perfect for Audrey. But he procrastinated and that caused some major problems to occur. Yet if he hadn't procrastinated then would the relationship gone anywhere? Would Audrey have accepted him with his past and flaws even though in the present he wasn't the same man. I know that might be confusing because I didn't really explain anything about why he was procrastinating but all I will say is his past was not squeaky clean. Not something he felt Audrey would be happy about after her experiences and failed marriage. I really enjoyed this one. It has a lighthearted feel even with all the healing, pasts and everything I've mentioned above. I felt like there was a good mix and balance. I was definitely turning the pages and reading when I could because I wanted to see if these two could work out their pasts and differences and be willing to trust each other. Cute, fun, lighthearted, emotional, and definitely some fireworks. Rachelle Christensen is definitely one of my favorite authors to read and

enjoy. Her romances, her mysteries, her historical novels, if you haven't read any I highly suggest you pick one up and read it or all of them. Content: Clean. Audrey's ex husband had affairs but it's not discussed, the reader just knows it happened in the past. Some talk about drugs and alcohol. Again not discussed in detail, reader just knows it was part of a person's past. A couple sweet kisses. As you've probably figured out from earlier in my review, some Christian elements. Not preachy in my opinion but fit well with the story. Happy Reading!!!

This was a fun, short, clean romance. The way Audrey and Troy met was cute and set the stage for Duke's involvement in the story. I appreciated that though Duke had a role in the book and was mentioned numerous times, his part was not forced, nor was it over the top. The relationship between Audrey and Troy was natural and believable. I always appreciate when the emphasis is not on the physical, and did appreciate the way that Troy was such a gentleman he wouldn't consider doing more than just kissing Audrey outside of marriage. While Troy was a billionaire and Audrey was not, even the money was not emphasized as a big deal, other than Troy's friend, Mike, being concerned that she might be a gold-digger. Even Troy wasn't really concerned with his money other than being glad he could use it to help others. While there was a Christian element to the book, it was not strong nor was it forced on the reader. The story dealt with trust and forgiving others but was not preachy in any way. I don't believe a non-Christian would be offended by the story and the elements of Christianity that were there.**** Spoiler alert ****(I'm being careful here to not reveal more than I should, hopefully this doesn't spoil things too much for you) One thing that I wish had been clarified in the resolution of their conflict. Troy mentioned early into their relationship that he was saving himself for marriage, but then the suggestion was made that maybe he hadn't saved himself. It would have been nice to know if it was just the tabloids who were wrong, or if he made commitment after he started with a clean slate.Â This review was originally posted on Among the Reads

Audrey Blair is divorced with 2 young daughters. In an attempt at a fresh start, she moves across the country to Nashville with hopes to renew her work as a vocal coach. After the betrayal she's endured, she is absolutely not looking to date anyone. However, when her dog's Frisbee goes off course and whacks a man in the head, she can't ignore the attraction. And, when that man turns out to be her new boss, she quickly realizes that her heart is in trouble. Billionaire Troy Jackson doesn't know what hit him as he's walking alongside a park. But, when he sees the beautiful red head checking on him, he's glad for the hit. Troy struggles to find women who are interested in him and

not only his money. So, when Audrey seems to fill that need, he realizes that his heart is in trouble. What follows is a sweet romance that focuses on 2 damaged souls. Audrey has fears of betrayal from her ex husband and Troy has a dark past that he's desperately trying to move beyond and change. But, as their relationship develops and feelings grow, he struggles with the right timing to reveal his past. What will happen when it's exposed? I was enjoying the story immensely and it was developing nicely until the big reveal of Troy's past. Then, my reaction was that Audrey simply went nuts. It was too over the top and heartless. I found her way too self-righteous. With all the Christian elements filtered through the story, I expected a different reaction. Of course, there's the HEA, thanks to her best friend and the dog. Romance - PG - lots of kisses Language - Nothing offensive Recommended - Yes My rating - 3 stars
