# Rise Of The Circle (The Meta Superhero Novel Series Book 3)

## Synopsis

As metahumans emerge throughout the world, some greet them as saviors while others see them as a threat to humanity itself. A group of elite soldiers come into possession of the most powerful metabands seen yet, with the ability to destroy what was thought to be indestructible: the metabands themselves. With the destruction of the Silver Island Metahuman Detention Facility, Bay View City goes into total lockdown. Alpha Team impose their protection, but at a price: the complete and total ban of metahumans within the city. Refusal to follow is punishable by execution. Forced to leave the city he calls home, Connor is given a second chance at an elite prep school across the bay, one with a very big secret. Rise of The Circle is the third book in the breakout hit series that started with Meta and The Second Wave.

## Customer Reviews

The third installment for Mr. Reynolds is a hit. This is the most well developed book so far. The characters are more developed and multidimensional. The main character, Connor, is a witty, wise-cracking teenager. (Reminds me of Peter Parker's Spiderman) As the author's writing has matured, so has Connor's character. There are so many surprises with twists and turns. In this novel

you will get much needed info on the The Battle and first wave of metas. There is also the beginnings of a great back story to the origins of the metabands, Midnight (favorite of mine due to his Batman qualities) and Connor and Derrik's parents who were killed during first wave great battle. Easy, smooth read with wit and humor that makes it that much more enjoyable. Love this series and hoping it goes on for more than 4 or 5 books.

As stated above, if you liked Meta 1 & 2 you'll like Meta 3 as well. No more Lone Ranger for Conner, now he has many, many metas to help him. This happens because Conner starts a new school that is a front for young metas who need training. Complaints, a few, are not as much action as in previous books. Also I feel as if a lot of loose ends are left, well loose. Early conflicts with classmates are never resolved. Editing is shoddy at times.

If you have read the last two books prepare for a conclusion that wraps things up beautifully. A real page turner just like the other two books.

I read the first two books and was convinced they couldn't be topped. After hours of binge reading I finally finished and I am speechless. It keeps you on the edge of your seat, with plot twists that are impossible to expect. Reynolds is a visionary writer creating one of the best series I've read in a very long time. Can't wait to see what he does next and don't doubt it will be incredible.

I have a 13 year old daughter and recommended it to her. The action was fast and it has a few strong women in it as well.

What's next? I can't wait to see where you go with this. I'm enjoying the series so much! Thank you

Awesome series! Great for comedy, action, suspense, and a fresh take on superhero novels. I just finished the third book a few days ago and am already anxious for the release of the fourth, I guess I'll just reread the series until the new one is out. I would honestly recommend this series to every one, I assure you there's something in it for you.

If you're the type who prefers pages of lengthy description about every single physical detail, then Tom Reynolds may not be your favorite author. However, his writing will nevertheless draw you in with skillful and creative storytelling packed with action and compelling dialogue. I've become a

huge fan of the Meta saga!
