Palliative Care Consultant: Guidelines For Effective Management Of Symptoms: A Reference Guide For Palliative Care

Synopsis

The Palliative Care Consultant (PCC) provides practical recommendations for palliative symptom management in adult patients. The aim of this guide is to equip all practitioners who care for patients with life-limiting conditions, whether they have hospice-specific training, or only occasionally see a patient in hospice or palliative care. ~For hospice and palliative care clinicians, this book may be used as a resource for support of current practice and a quick reference guide.~For educators and novice practitioners, this book may be used as a training guide to address the basics of hospice and palliative care and assist learners in developing a comprehensive plan for symptom management.

Customer Reviews

An exceptional resource for the hospice and palliative care professional! I never leave home without it!!

Good

Having worked with each of these authors during my years as a hospice nurse caring for persons whose comfort required expert management of acute symptoms, I highly recommend tapping into their collective wisdom and expertise by investing in their book. I am eager to enhance my knowledge base by doing so, and look forward to sharing it with my colleagues. Thank you, Phyllis, Bridget, and Jason, for putting in words your vast experience-based knowledge! Hospice and Palliative Care has just been given a tremendous gift.

Excellent resource for the palliative care and hospice practitioner.

Excellent resource! Ordering several copies for hospice doctors and nurses to use.
