Customer Reviews

justinguitar.com has made a guitar player out of me! I've bought numerous "learn to play guitar" or "beginner guitar" books and waited with anticipation only to have them arrive and find that they are not beginner books at all. They're just a bunch of songs with complicated chords that I didn't yet know (even with a foundation of at least 6 chord shapes). This book has playing tips, strumming tips, and progresses naturally by separating the book into stages where chords are added for each stage, then you get a bunch of songs with only the chords it had included thus far before progressing to the next stage (and more chords). The BEST beginner guitar book series out there (this is Volume II, I recommend working through the first volume first). Best of all, if you are stuck or have basic strumming down but want to get better, you can head to the instructional video on his website (where I started and spent a long time before learning about his products) to learn other tricks and keep progressing. His website rocks and I've now purchased numerous products from him and they are the real deal. I'm so thankful I found it.

This book is great. I have most of Justin's books, and I love his teaching style. The books are very easy to read for beginners and I definitely recommend this book and every product from Justin Sandercoe.

Has songs to learn as you go through Justin's Beginner Guitar course - buy that book too. This is a

great set of books to own.

Awesome!!! Love this guy!!

Justin Sandercoe is a great guitar instructor. His books in conjunction with his videos make it easy and fun to learn. The tabs he puts in along with strumming patterns and other information are great.

Justin is terrific. Learned more from him than I did from a music teacher who I was paying. Using books and website.

Good quality content, as usual

Justin Guitar has helped me learn to play over the past couple years. Use this with the online lessons and you can learn guitar.
