Floral Bouquets Coloring Book (Dover Nature Coloring Book)

Synopsis

Thirty ready-to-color floral designs combine many accurately drawn flowers – tulip, iris, peony, rose, lily, daisy, zinnia and many others – into beautiful bouquets arranged in vases, pitchers and baskets, or in sprays tied with ribbons.

Customer Reviews

For Flower lovers of all ages, Flowers cleverly arranged and gathered together into 30 captivating bouquets! What a wonderful book! Flowers including; tulips, irises, peonies, roses, lilies, daisies, zinnias and many more, are cleverly arranged and gathered together to create 30 bouquets of captivating beauty, simply tied together with a bow, placed in a vase, basket, or pitcher and just waiting for you to bring them life with vibrant color. Add bright and bold colors like reds and purples full of energy or use soft pastels for tranquility, your choices are endless. 1. 30 Illustrations printed front and back on 15 pages of heavy weight, bright white paper 2. For Flower lovers of all ages, my grandchildren both boys and girls love coloring in this book and taking a picture of flowers to Mom, 3. I use this book to teach my Grandchildren basic color theory with a color wheel (available on) Example : (Using complimentary colors, those across from each other, Red and Green or Blue and Orange or Yellow and Purple, will make the flowers burst off the page.) 4. I love coloring in this book,

there is just something about coloring flowers that is soothing, add a flower scented candle and you will be rejuvenated.5.Colored pencils or crayons both work well with this book

Wonderful book. The designs are such that they aren't full of tiny little spaces to color. Many have larger areas which make it more relaxing to color. A real nice selection of pictures too. Great price as well! Well worth buying. No bleed over either from 1 page to another.I love this book, the pictures are going to really be beautiful when finished. Floral Bouquets has 30 pictures to color with 4 colored ones to give you ideas. This book is going to be so good to do up and then gift to someone who loves flowers but can't have any due to allergies. They get to see the beauty in them. You can even gift the book and some colored pencils so they can do them themselves. They will have something to treasure for years to come.I must sound like a broken record but make sure to have something under your picture if it isn't removable so you won't leave imprints on the picture under it or color markings from the one already done.

My husband had a relapse of brain cancer. Originally he had it in his 20's. It went into remission for 27 years and then came back with a vengeance. He is an engineer and has developed problems communicating which can be frustrating for both of us. An activity we can do together is to color these beautiful flower arrangements with colored pencils.These arrangements are gorgeous. And any color he chooses for the picture is perfect. We take turns putting a little color in the picture. He loves the intricacies of the arrangement yet it is easy enough to follow to color if we take it one item at a time.This coloring book is a real life saver/therapeutic item in my arsenal to help my husband stay engaged in this world.

I bought this as a gift for my recently widowed mother in law. I thought she might enjoy coloring, but didn't want to give her one of those super-detailed, fancy, complicated books right out of the gate. I chose this one because the patterns were pretty - who doesn't like flowers - as well as fairly simple. Enough to keep an adult engaged without being intimidating. She reports that she has loved using it, and finds that it is a nice welcome distraction to sit down to when she needs a breather. I packed this up with a simple box of crayola colored pencils, and while it wasn't super fancy, or expensive, it has helped her to de-stress and she has mentioned that she has really enjoyed the coloring more than she thought she would. After this one maybe she will want to try something a bit more ambitious. I love that she has been able to get enjoyment out of it. I would purchase this again!

This is my 3rd (i think) purchase of this book. I love doing flowers and this one has also wonderful containers. I would be better as a creative haven book with one side only but I still love this beautiful and inexpensive book. Highly recommend if you love using colored pencils as your medium. Great for the person who loves to color or even a gardener who loves flowers. Its fun to do it over and use different colors for the same picture.

Bought as a Christmas present and was disappointed. There are pictures on both sides of the paper so unless you use crayon or colored pencil, you have to choose which drawing you want to color, as the color will seep into the picture on the reverse side.

The bouquets were beautiful and so much fun to color. There were just a couple of things I didn't like about it. I knew when I bought it that the pictures were on both sides of each sheet. But I didn't know how thin the paper would be. The color from the pencils stuck to the page next to it and I had to use an eraser to remove the color. The pages weren't perforated but were stapled. Trouble there is the pages detached from the staples. It would've been nice if there had been names and pictures of each of the flowers and plants. I decided to Google garden flowers to get an idea of what the name of some were and what colors they came in. I really wanted to make sure I colored the bouquets properly. I would pay more for the book if it had the suggestions in it I just gave. But it has been very relaxing, easy to color with little eye strain on tiny areas. The artist did a great job drawing the pictures. I especially enjoyed the bouquet that were in the baskets. I would recommend this to a friend that's just getting started with adult coloring, especially if they love flowers.
