Downs Syndrome (Young Explorer: What's It Like?)

Synopsis

Introduces young readers to conditions and disabilities that may affect them, or their friends and family. Each title discusses what the condition is, how it can be treated, how it affects everyday life and what it is like to have these conditions. This book contains a clear definition of each illness or condition and includes a 'how you can help' section offering contact details and further information and advice.

Customer Reviews

The book is extremely well designed and produced with clear text and good quality photographs. An essential addition to any primary or secondary library. -- School Librarian 20090901 The production as a whole is of the highest standard. Excellent for schools, but also as information for families. ****
-- Books For Keeps 20090901 --This text refers to an out of print or unavailable edition of this title.

Angela Royston has written many books for young people, including books about people at work, animals, health and the environment.

I bought this book for my daughter's kindergarten class. Nice simple explanations of kids learning but slower, maybe needing help in class or other aids. Nice pictures of typical not just extra cute kids with DS and some adults too. Wish it ended with someone in a real job not a workshop.

i receive it very fast. i will purchase it from you next time. my sister need it , I am very happy and excited about this product. It looks good, feels real, and cuts very well. I definitely think the product is of good quality for the low price. In other words, you get a good product for the price you are paying for. Definitely recommended! this price is valuable.
