How To Get Every Contract Calculation Question Right On The PMP® Exam: 50+ PMP® Exam Prep Sample Questions And Solutions On Contract Calculations ... Simplified Series Of Mini-e-books) (Volume 2)

Synopsis

Aileen's view on PMP Exam Preparation To learn to ride a bike, a person must ride a bike. To learn to pass the PMP® Exam, a person must practice with hundreds and hundreds of PMP® Exam Prep sample questions. This book is the second book in our series of mini- books - PMP® Exam Preparation Simplified Series Over the last 16 years Aileen has helped over 10,000 project managers in her workshops obtain their PMP® credential. Often the participants in Aileen's workshops are successful project managers who may lack experience in specific topics on the PMP® Exam. The topics that participants seem to struggle with the most are: Earned value Management (EVM) Contract types and calculations(FPIF, CPIF, PTA, etc.) Network diagrams including float, free float, project float, leads and lags Financial based questions including IRR, ROI, etc. Statistical based questions There is one thing all of these areas have in common and it is math. Aileen has decided to create mini-books in each of these areas so that students can gain both the knowledge and the confidence to get these questions right. Many project managers want to study just enough to pass the PMP® Exam and not one second more. Aileen's view is to practice on enough sample questions in each area so that the project manager is confident he/she will never get a question in that area wrong. While the primary goal of this book and Aileen's workshops is to help you pass the PMP® Exam, Aileen hopes that you will also walk away as a more knowledgeable and successful project manager.

Customer Reviews

Aileen Ellis, PgMP®, PMP®, is The PMP® Expert. She is the owner and proudly the only instructor for AME Group Inc., a Registered Education Provider (REP®) through the Project Management Institute (PMI®). She personally instructs project managers to gain the confidence and knowledge to pass the PMP® Exam, the CAPM® Exam and the PgMP® Exam. She has helped more than 10,000 professionals obtain their PMP® through her PMP® Exam Prep Workshops. Working with thousands of project managers from dozens of countries, Ms. Ellis has gained a thorough understanding of the ins and outs of the PMBOK® Guide, the PMP® exam content, and proven PMP® Exam Prep strategies. Ms. Ellis began teaching PMP® Exam Preparation Courses in 1998. Over the years she has mastered how students learn best and has incorporated those lessons and methods into her books. Her approach is focused on understanding the Project Management Processes and their interactions, with limited memorization. Ms. Ellis not only leads workshops to help students study for and pass the CAPM®, PMP®, and PgMP® exams through review of content and hundreds of sample questions, she provides materials (books, sample questions) to other REP®s and PMI® Chapters to support their educational efforts. Ms. Ellis lives in Colorado Springs with her husband, Terry, and their two children, Nick and Alex. AME Group, Inc. was founded in 1997 by Aileen Ellis, PMP, PgMP. Aileen™s sole aim is to provide you, the project manager, the knowledge and confidence to pass the PMP Exam without wasting your time and money. Aileen personally facilitates all of AME Group Inc workshops. From helping you with your PMP (or CAPM) application, preparing for the workshop, taking the workshop and passing the PMP® exam; Aileen is by your sideâ | as your PMP Coach. AME Group Inc is an Registered Education Provider (REP) through the Project Management Institute (PMI).

I think this is a great mini-book, very useful for studying for the PMP exam. The book consists of a short overview of the topic, although I think it would be more helpful to know the material before you buy this book. It's a good refresher though and then it jumps right into 50 questions and answers. For some the questions might seem repetitive but this is the best way to learn and memorize formulas. I didn't take the PMP test yet but I'm hoping this mini-book will help me as that day is arriving quickly. I hope Aileen Ellis puts out more mini-books soon to address all the topics on the exam.

I purchased this book because there were so few places on the internet that would give you a lot of practice doing these calculations in a single place. The book comes in three parts: learning material,

50 questions, and the respective answers. Just like mathematics, it requires practice to get the process down. At first, I wasn't sure about the number of questions. But after going through the book, it is the sweet spot of being the right number. Not all of the questions are calculable questions. There are questions that test your knowledge on the differences between the contract types. I completed the book over 5 days (10 questions a day) really helped solidify the knowledge. It is TOO easy to rush through the book and store the skills in short term memory. Patience grasshopper! Spanning over several days moved everything to long term memory. I have purchased Mrs. Ellis' Earned Value book. I could copy and paste this review for that as well. There is no doubt that I will get these questions right and quickly on the PMP. **TL;dr:** Very good book that will prepare you for any contract question on the PMP.

I used this ebook during my last days to my exam. I found it to be useful in answering questions on contracts types and calculation in passing my PMP exams this week. It is a must have for everyone preparing for PMP exam.

I wish I had known about this book before my first attempt on the PMP exam. Trust that there *WILL* be procurement contract calculation questions on the exam. Aileen's book will quickly teach you the information you need to know. Nothing more, nothing less. Most of my prep materials hardly touched on any procurement questions and I wasn't prepared when I encountered them on the exam. This book also does a great job explaining the different contract types and helps you understand the level of risk associates with each one for both the buyer and the seller.

I faced the PMP exam and passed it. All the questions that are there in this book simply helps the reader to be prepared for any type of question. This book helped me to increase my confidence for these type of questions. Its funny, but I was longing for question in this format because I was so confident. The author has provided help links, even demos, which is very helpful. I would recommend any one who is planning to face the PMP exam to go though this book any time :-)

I recently passed the PMP exam with the expert guidance of Aileen Ellis' trio of books: How to get every earned value question right on the PMP exam, How to get every network diagram question right on the PMP exam and How to get every contract calculation question right on the PMP exam. Each book is a quick read establishing parallels between theory and practice. The sample questions spanned the most basic concepts to the most complex. Utilizing Aileen's books give me

the confidence needed to pass complex areas of the exam in a short period of time. I highly recommend these books to anyone requiring focus on these aspects of the exam.

1 of those Books that you just have to say "Thank God it exist." I took the exam and failed. I realized that some of the areas I had issues with was, understanding some minor details such as the EV test questions. Practicing more on this would have made a huge difference on my exam in my result. I have gotten at least 20 questions on contract calculations, if only I focus on this more. This book gives you a very good detail on how to solve the question. Definitely worth every penny.

Mrs. Ellis continues to provide outstanding materials that you can use towards your effort in studying for the PMP. I knew absolutely nothing about contract calculations at least until I received this publication. Mrs. Ellis walks you through several contract types. Although I did extremely poor at the beginning of solving these questions, I am more confident that I can solve them now. Mahalo nui loa! You must arm yourself with this publication if your studying for the PMP.
