Customer Reviews

I felt the the story was on the funny side yet grownups of kids these ages have very likely heard this phrase way too often, yes? I was blessed with a parrot kid who went on different types of rides but never repeated this phrase as other young ones di. He was so contented to be with me and seeing new places I guess. Super story and colorful inages, too, these are my reasons for recommending it for five stars and for kids ages 0-8, & / or in grades P -3. I received this for free using KU, in return, here is my honest review. Super work V! By Angela

Another great one. I love them all because they show so well on the kindle fire. It's cute, Sammy

goes on a road trip and does things you might expect. Simple, fun and true to life.

We love these birdie stories. My kids make me look every night to see if there is a new one and they get so excited when there is. Great series! Keep up the great work! The kids wanted to see what the grandparents looked like though.

Wonderful bedtime stories for my daughter every night! So many to choose from and always looking for new ones! We've read them all at least 6 times.
