Customer Reviews

Features Morrison, Castlewood Canyon, Colorado Springs and Pueblo areas.

Bob Horn has obviously gone to every one of these areas, or gathered info from other climbers and detailed them well in this book. His line drawings and sketches are better than usual and are easy to find and follow. My only gripe is that a lot of the southern front range bouldering classics are on private property and no directions are given to several areas. I think when a climber is accessing private property, a simple stop at the owners residence will often gain you legal access to these precious gems. From an ex-greenhorn valley dweller, enjoy!

This book offers easy to read maps and drawings with a personal touch not seen in other guides of this type. A wealth of information has been gathered and revealed within the text. This just one of a series of books that has a unique handcrafted touch where value will increase with time. In Front Range Bouldering texts the author has obviously taken the time to walk around and observe each individual boulder by drawing them and notating their features. Great bargain.
