Winning The Witnesses

Synopsis

Proven step-by-step methods that will help you bring Jehovah's Witnesses to Christ. While serving as an Associate Pastor in 1996, Daniel Rodriguez was instrumental in targeting his city's large Jehovah's Witness population. Construction of a Kingdom Hall was stopped because the strategies in this book either won Witnesses to Christ or destroyed their faith in the Watchtower Society. The step-by-step plan in this practical, easy-reading book will help you to reach Jehovah's Witnesses like you never thought possible. Discover: Why Jehovah's Witnesses won't listen when you quote your Bible. How to get them to actually hear and receive your words. How you can get them to doubt their leaders. Tactics they use to get Christians sidetracked. You Will Also Learn: The logic that is such an effective tool to reach them. How to persuade honest Witnesses to reject the authority of the Watchtower Society. How Watchtower publications contradict themselves, the Bible, and their religion. Why the first thing you must do is destroy their faith in the Watchtower, and how to do it. If you want to be more successful at sharing the gospel with Jehovah's Witnesses, here's help.

If you've found yourself challenged by the ping-pong exchange of scriptures between yourself and a Jehovah's Witness, this book could be for you. Not that it says that the Holy Bible should never be used in witnessing to them (it gives some really useful scriptures when bringing them out of the movement) but too much going backwards and forwards with your different Bible translations can get you nowhere and become frustrating. The author therefore looks at different areas of the Watchtower organisation that leave it compromised to its bold claims of being the mouthpiece of Jehovah in the present age. Using helpful scenarios and example dialogues, the author assists the faithful witnessing Christian to gracefully evangelize the Jehovah's Witness to see the real truth that is in Christ alone. Winning the Witnesses takes just a couple of hours to read but a book that you'll come back to again and again. I'd recommend this book to all who have a heart for winning the Jehovah's Witness movement to Christ. Thanks Daniel for this great book.

Coming out the darkness of the watchtower, i wasn't baffled by these strategies, but these strategies are very non confrontational and shows respect to another human being made in the image of God, that gets that person to think and work to undermine the UNINSPIRED watchtower, and lead that man or woman to a relationship with Jesus Christ.

A very good, informative and helpful read. If you are currently talking with Jehovah Witnesses, you will find this hard to put down. I have experienced all the wrong ways of talking to them and am excited about using the strategies in this book. "He that winneth souls is wise." Prov. 11:30 This book provides some time tested wisdom for those who love Jehovah Witnesses.

A very interesting take on how to talk with the witnesses. Never really thought about it in this way. I now know how to approach the conversation in an intelligent manor! Great book!

I really enjoyed this book. The author approaches this subject with kindness, gentleness and love. And so should our dealings with these people be. Don't give them more reason to suspect you of being "worldly" Pagan or influenced by the Devil. Daniel mentions throughout that it's not the JW we

should be upset with, but the Watchtower Society (The supply line) that feeds the JW.I have dealings with a couple of JW's in my town via work and will employ some of this in time. That said, do understand you / I - can't take everything that's in this book and expect miracles to happen if conducting these example verbatim.As some reviewers have aptly said, these folks are very hardened, trained and have an answer for everything. But if you use this book as a "suggestive guide" whereby it gives you some examples, it's great!In fact, Daniel even states to use his examples in such a fashion that suits your style of witnessing. In other words, employ these idea's into your own way, time and fashion. And you know, he's exactly right. The point is to plant a seed. If just for a brief moment, it will make a JW "pause and think" about what you just said, then you have delivered a hefty blow to their armor. And what's most appealing to me is not having to use a lick of scripture.Realize, you may only be able to throw one maybe two shots to their mid-section. It is in my experience, that after the first two shot's, they will shield up and walk away or change the subject and avoid you in the future."Planting seeds" takes time for any true result to manifest. And if you implement some of these idea's into your own technique and style, with patience, kindness while avoiding argument, it is worth the shot.My advice is to take one or two of these idea's or examples and learn it. Absorb it, Master it. Remember, you may only have one shot before they put up the defensive wall. If that happens, step away and allow them to ramble as they often will. It's a defensive mechanism. But know those shot's you just took were very powerful blows. And if it is meant to be, and "Deus Vult!" - you have done your part in waking these gentle people up.

This book has an approach to witnessing to Jehovah's Witnesses that is so short, sweet and the the point that actually sounds more fun than fearful. I am looking forward to trying it the next time they come to my door.

Most loving approach I have ever seen for witnessing back to those who knock on your door! I've never been one to debate and argue anyway but this makes so much sense :)
