Maingot's Abdominal Operations, 12th Edition (Zinner, Maingot's Abdominal Operations)

Synopsis

THE DEFINITIVE ILLUSTRATED GUIDE TO ABDOMINAL OPERATIONS FOR GENERAL, COLORECTAL, AND GASTROINTESTINAL SURGEONS--NOW IN FULL COLOR! A Doody's Core Title for 2015. With each edition, Maingot's Abdominal Operations has built a legacy of expertise, currency, and clinical rigor acclaimed by surgical trainees and practicing surgeons. Presented in full-color for the first time, the 63 streamlined chapters of the twelfth edition offer a concise, yet complete, survey of the diagnosis and management of benign and malignant digestive diseases. This authoritative resource has everything you need to understand congenital, acquired, and neoplastic disorders--and optimize surgical outcomes for any type of abdominal procedure.

FEATURES

- Contemporary focus on operative procedures, and new concepts in the diagnosis and management of abdominal disease
- Convenient organ/procedure presentation provides a seamless review of surgical protocols, as well as pre- and postoperative strategies and techniques
- Thirteen new "Perspective" chapters feature expert commentary and alternative viewpoints on the most clinically relevant topics
- Added chapters on gastrointestinal bleeding, abdominal trauma, and abdominal vascular emergencies--along with minimally invasive surgery chapters woven throughout the text--present current, ready-to-use insights designed to enhance surgical care and recovery
- More than 1,250 illustrations (most in full color)

Awesome book for general surgeons, surgery residents, and overzealous medical students wanting to go into surgery. Some of the older versions have very detailed info on forget surgery that we don't routinely perform anymore (ulcer surgery, duodenal surgery with tips on the difficult duodenum, etc)

I regularly read novels on kindle but this was the first time I bought a course book. I am reading it on my iPad mini and am really pleased with my purchase. It is so easy to highlight and bookmark and search in case on any query. I only wish prices were further marked down for ebooks so that college students could afford to buy more books!

Worth the price. I found this book to be very useful.

Used it before as a reference for pancreatic cancer and it had excellent information on research, diagnostics and therapies.

The kindle version is really nice, it is really a pleasure to read it. Thanks a lot for this book.

Best book ever!

I like it

Good as new
