Customer Reviews

WARNS that there is male nudity, but there is only nothing but shirtless men here. Was hoping for tasteful erotic nudity. Don't bother. You get more from a calendar

Please don't waste to your money. There is zero nudity in this book.

Boring.

Nothing special except for some nice looking guys

Rather to look up some porn than this

pictures of Shirtless Men but good to see of slender, six pack abs men like the cover picture.

Not fully as erotic as some photo shoots but certainly some good images. The models poses seem more likely a part of their portfolio than who' what and why they are posed as they are within this book. I certainly would like to view more of Timothy Fortner's photography comparing his early work to his latest work. He does have a good eye for male eye candy.

Some of these guys are okay. The poses are the same and there's no imagination in style, positions, allure or anything. Just guys standing around without a shirt in a generic background. I was not impressed.
