Trish Kuffner lives with her husband and five children just outside of Vancouver, British Columbia. She is the author of The Toddler's Busy Book, The Preschooler's Busy Book, The Arts & Crafts Busy Book, and The Wiggle & Giggle Busy Book.

my favorite thing is that it has a supply list so that you know what you're getting yourself into before

you choose a project and what household items you may already have versus the ones you may need to go out and get. I'm using this book for my latchkey program and also my younger siblings to be able to busy themselves with fun learning throughout the summer and after school.fun projects for school age children.

Not really worth the money. I was really looking for something that had lots of things that my young grandkids and I could do when they came to visit. Pinterest is much better and it is free.

I can't wait to do some of these with my little one. I have been looking for this everywhere because I had bought one a long time ago for my brother and his children.

I have three of her books & I love them all! This is a great resource for both parents and caregivers. I have worked with kids for over ten years, and there are still things in here I have tabbed. =) You won't regret buying these books.

Just ok

I gave this book to my Niece -in-law. She liked it but it did not tell what age the activities were meant for. She didn't like that she had to figure that out as she went. For example; her 1 1/2 year old ate the peanut butter play dough instead of playing with it. But I think that is part of her learning process as a mother. So I think this is a good book.

No regrets here. Fine condition and great little projects. The kind of book that just don't get outdated. I recommend!

This book had a lot of great and very creative ideas for crafts with kids of all ages. Very helpful!!!!
